

DON'T try to get something for nothing—means don't be a sucker—no one sells gold dollars for a quarter.

WHEN people claim to undersell everybody there's something wrong, either with the people or the goods.

TIME is money—so is prompt delivery—so is quality.

RIVERDALE, CHICAGO

MANUFACTURERS OF

Millwork and Lumber

Illinois Central Suburban Trains

run every hour to Riverdale, where you can always see the high grade stock carried at our large plant.

Take the train at either Randolph or Van Buren Street Stations.

Our Millwork is as good as the best machinery and skilled workmen can make. Contractors like it and they are good judges. Quality counts.

For quick shipments of Stock Work we have on hand almost every thing shown which can be carried in stock.

We aim to ship Odd Work quicker than other Manufacturers do—so you don't have to wait so long.

Our Chicago factory makes all our Odd Work.

TERMS

ORDERS \$20.00 OR LESS

Send Cash with order.

ORDERS OVER \$20.00

Deposit Cash for entire order at bank, have your banker send us guarantee and we will ship order **to you**.
(Use Our Guarantee Forms)

Send 25% with order and we will ship, in **our name**, subject to inspection before paying balance.

ORDERS FOR CARLOADS

Deposit Cash for entire order at bank, have your banker send us guarantee and we will ship **to you**.
(Use Our Guarantee Forms)

LUMBER and MILLWORK Carloads will also be shipped in **our name** subject to inspection, payment being made at bank if stock is satisfactory.

ORDERS FOR ODD WORK

Specially manufactured is odd—Cash to accompany order.

SPECIAL TERMS

On Large Contracts, such as Schools, Public Buildings, etc., constructed under bond, we will consider Special Terms of Payment.

LIBERAL TERMS

Contractors will find, by comparing our terms with those offered by Mail Order Houses, that we offer more fair and favorable terms than any of them. We furnish first-class Materials and Guarantee satisfaction, which is not always the rule with concerns who demand Cash in advance.

Payments to be made by Chicago Draft, New York Draft, Express Order or Postal Money Order. We do not accept out-of-town Checks unless $\frac{1}{10}$ of 1 per cent exchange is added.

All Prices in this handy CONTRACTORS CATALOGUE are Net Cash, F. O. B. Chicago.

Our References: Any Bank or Commercial Agency.

Guaranteed Safe Delivery

We Absolutely Guarantee Safe Delivery
Providing you comply strictly with instructions given below

Read these Instructions for Receiving Goods

If goods fail to arrive in reasonable time notify us promptly. Our traffic department will trace the shipment from place of consignment and will continue to do so until it arrives at destination.

Have your Transportation Agent mark every Shortage on Freight Bill

Do not receipt for goods received from transportation company until you have examined the goods and have checked the **number** of bundles, packages, cases or pieces and have verified them with freight bill or our bill of lading. In case of shortage please notify us promptly, and *before you receipt for the goods* have transportation agent mark this shortage on freight bills.

Breakage of Glass or other damage to Goods

Have your Transportation Agent mark every Breakage on Freight Bill

When you receive and accept a shipment of goods with glass broken or goods otherwise damaged, before you pay freight or express charges ask railway agent to mark freight bill or express receipt with the number of lights of glass broken, or extent of damage to goods in the shipment.

On freight prepaid shipments you receive no freight receipt, therefore get written statement from railway agent as to damages. Have damages repaired, or glass replaced and send us receipted bill and "marked" freight receipt for which we will forward our check to you for damage.

NOTE—we can only "make good" on damages where you follow above instructions.

Directions for Ordering

AND MAKING LISTS FOR ESTIMATE

Follow them, giving all particulars, and we can figure your lists and enter your orders immediately. Otherwise we are obliged to write for more information.

Give Width First—Then Height

In all Millwork this is the universal rule :

2-5 x 1-4 always means 2-5 wide by 1-4 high.

1-4 x 2-5 always means 1-4 wide by 2-5 high.

WINDOWS AND SASH

TERMS USED AND WHAT THEY MEAN

Sash indicates a single piece.

Window means two pieces, an upper and a lower sash, made with either plain or check rail.

For regular sizes give all the following information:

Size of Glass. Number of Lights.

Thickness of Wood.

If windows, Plain or Check Rail.

For odd sizes give size of opening to be filled and describe as above.

*Measurements in inches always mean glass size;
in feet and inches they mean the out-
side measure or opening.*

DOORS

Always give all the following particulars :

Width. Height. Thickness. Quality.

Number and Arrangement of Panels.

If the Door has a Name or Number give that.

IMPORTANT—If you give numbers from any other catalogue, state whose book and date of issue.

Splendid Quality has made our Millwork Popular

"HURRY UP" Deliveries

FOR YOUR FINANCIAL SUCCESS

**Prompt Shipments of Lumber and
Millwork are absolutely
necessary.**

WE HAVE eight different lines of railroads at Riverdale, two being belt lines running 'round the outer edge of the city, so we can ship both Lumber and Millwork on any line going out of Chicago without delays.

We have gained our reputation as prompt shippers by "Keeping Promises," not merely by "Making Promises." Read our Safe Delivery Guarantee, page 3.

How You Can Help Save Time

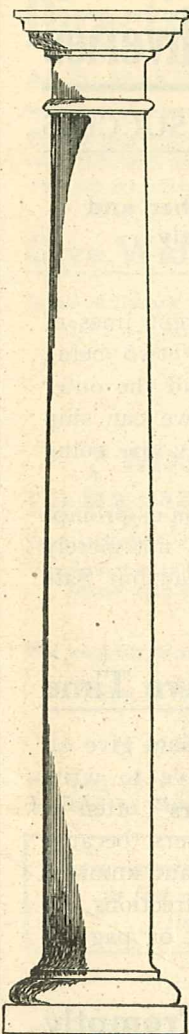

Be sure your Lists and Orders give all necessary information. We have to write every day for "more particulars" often at great loss of time to our customers, because they failed to give some important number, size or measurement. See "Directions for Ordering and Making Out Lists, on page 4.

We Can Manufacture Promptly

any item of Millwork shown in this or any other catalogue, if you tell us from what book your numbers are taken.

All goods shown in this CONTRACTORS CATALOGUE are the kinds now in style. Strictly up-to-date.

Roofing

RIVERDALE FLINT COATED ASPHALT ROOFING

Our Riverdale Roofing is equal to any coated roofing on the market and is superior to many. Made from the best of materials, all wool felt and the purest asphalts.

The life and soul of any roofing is the saturating and coating compound and this roofing is made of the only substance known which fully and perfectly meets the requirements of all conditions of weather and temperature.

1-ply, complete, per square.....	\$1.20
2-ply, complete, per square.....	1.40
3-ply, complete, per square.....	1.65

CROWN BRAND FLINT COATED ROOFING

Our Crown Brand Roofing is a cheaper or second quality roofing; it is equal to many of the so-called "first quality" roofings and we have known the one-ply to last 4 or 5 years.

1-ply, complete, per square.....	\$1.10
2-ply, complete, per square.....	1.30
3-ply, complete, per square.....	1.50

All of our Flint Coated, Rubber and Grit Coated Roofings are put up in rolls 32 in. wide, 40 ft. 6 in. long, containing 108 square ft., which is sold as 1 square, allowing for a 2 in. lap. Sufficient nails and cement for laying are packed inside the roll, together with instructions for laying. We will be pleased to mail samples of any of the above roofings on request.

RIVERDALE RUBBER ROOFING

Our Riverdale Rubber Roofing is a strong, pliable roofing fabric having the appearance of rubber. Extra quality wool felt thoroughly saturated with a waterproof material that absolutely can't evaporate or dry out.

CONTAINS NO COAL TAR

The compound used in our roofing is not affected by extremes of climate.

1-ply, complete, per square.....	\$1.20
2-ply, complete, per square.....	1.40
3-ply, complete, per square.....	1.65

SUPERIOR RUBBER ROOFING

Our Superior Roofing is a cheaper grade of rubber roofing manufactured to fill the requirement of our customers who require a less expensive roofing. This is an excellent grade of roofing for the price asked.

1-ply, complete, per square.....	\$1.05
2-ply, complete, per square.....	1.25
3-ply, complete, per square.....	1.45

IMPROVED GRIT COAT GRAVEL SURFACED ASPHALT ROOFING

This roofing is made from the best quality of wool felt, thoroughly saturated with the highest grade of asphaltum. After the felt is saturated it is coated with a heavy layer of asphalt into which is pressed a layer of finely screened washed gravel which will not come loose. Positively no coal tar, pitch, crude oil or other short-lived products are used in manufacturing this roofing. The gravel surface makes a handsome appearance and is weather and hail proof.

Price per square, complete.....	\$1.75
---------------------------------	--------

BURLAP GRIT COAT ROOFING

Made from the same high grade materials and put up the same as our Improved Grit Coat Roofing, with the addition of a burlap insertion which greatly increases its tensile strength.

Price per square, complete.....	\$2.75
---------------------------------	--------

All of our Flint Coated, Rubber and Grit Coated Roofings are put up in rolls 32 in. wide, 40 ft. 6 in. long, containing 108 square ft., which is sold as 1 square, allowing for a 2 in. lap. Sufficient nails and cement for laying are packed inside the roll, together with instructions for laying. We will be pleased to mail samples of any of the above roofings on request.

Building Papers

RED ROSIN SIZED SHEATHING

This paper is 3-ply and best grade. Each roll is 36 in. wide and contains 500 sq. ft.

A.—Weight about 30 lbs. Per roll.....	\$0.54
B.—Weight about 25 lbs. Per roll.....	.45
C.—Weight about 20 lbs. Per roll.....	.36

TARRED FELT

No. 2. Medium weight 15 lbs. per 100 sq. ft. Price per 100 lbs.....	\$1.60
---------------------------------------------------------------------	--------

THREADED TARRED FELT

Threaded tarred felt should be used for sheathing instead of ordinary building paper, as it is vermin-proof. Mice will not gnaw through it.

500 square feet in roll, per roll.....	\$0.90
250 square feet in roll, per roll.....	.50

WOOL DEADENING FELT

No. XX Deadening Felt, per roll of 50 yards.....	\$1.00
Heavy Deadening Felt, 1 lb. or 1½ lbs. per square yard, per 100 lbs.....	\$2.40

Black Carbonized, 36 in. wide, in rolls of 500 square feet, per roll.....	.80

BLUE PLASTER BOARD

Used in place of plaster for lining buildings inside, nailed over inside sheathing or lath.

Blue Plaster Board, No. 1, in rolls 36 in. wide, containing 250 square feet, weight about 30 lbs., price per roll ...	\$1.20
Blue Plaster Board, No. 2, same as above except cheaper material, price per roll.....	.80

Sackett Plaster Board

SACKETT PLASTER BOARD is a building material that should command the attention of every man who is interested in good building construction. It is displacing wood and metal lath in edifices of every type, and has earned the unqualified commendation of architects and builders everywhere. Every architect owes it to his client, every owner owes it to himself, to investigate this material before making old-style specifications.

SACKETT PLASTER BOARD has succeeded, and is succeeding, because it is something more than a mere base to hang plaster on—it offers advantages and gives results that are not obtainable in any other way. It makes a warmer wall than wood lath, is cheaper than metal, and resists fire better than either.

SACKETT PLASTER BOARD consists of alternate layers of felt and stucco, rolled into sheets, which are nailed to the studding, presenting a hard, smooth surface to which the plaster adheres perfectly. The board being non-inflammable, the result is a wall or partition that the underwriters will pass as "slow-burning" construction, that retains heat, excludes cold and that is an effective sound-deadener.

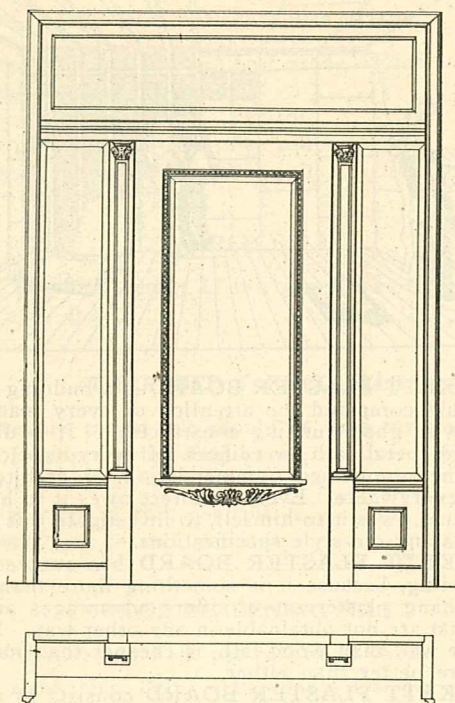

SACKETT PLASTER BOARD can be used to good advantage somewhere in every building. It is an excellent fire-retardant and sound-deadener, and can be used between floors to excellent advantage. It is also used for sheathing, and those who have tried it are enthusiastic over the results. It gives a warm, tight wall, and costs 25% to 40% less than lumber and paper.

Substitute for lath and brown plaster; float or sand finish or wall paper is applied directly to the plaster board.

In sheets 32x36 in. Covering space 8, 12 and 16 in. centers. Twelve and one-half sheets will cover 100 square feet. Four-ply asbestos wool felt and three layers plaster of Paris, making it absolutely fireproof and impervious to heat and cold.

¼ inch thick, weight 12 lbs. to a sheet. Price per sheet	14c
¾ inch thick, weight 16 lbs. to a sheet. Price per sheet	16c

We usually ship frames **set up**, but for local ship-
ment we tie each frame in a bundle by itself and ship
"knock down."

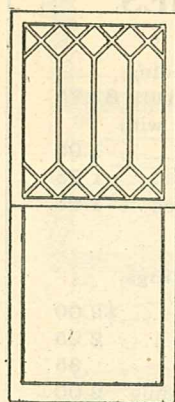

Orders for Door Frames should state whether
for frame, brick or cement block building, width and
thickness of jamb, and whether with rabbet or stop.

Orders for Window Frames for frame building
should state whether with or without pulleys, and
give width of pulley stiles, not including the blind stop.

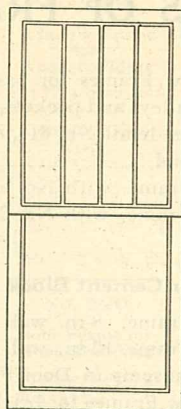

Window Frames are always figured without stops
unless otherwise ordered.

MIRROR DOORS

This door is made with Bevel Plate Mirror on the outside and panels inside with same arrangement of panels as in other doors in same room. It is very popular for use in bedrooms, as it gives a full length mirror at a small additional expense.

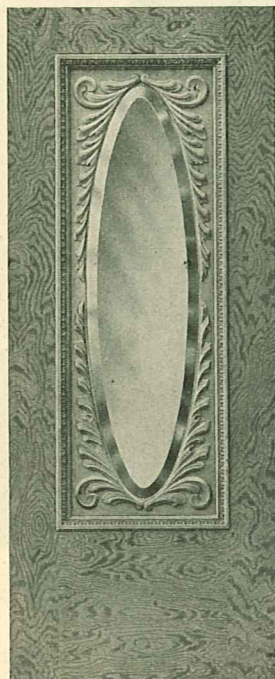

Prices listed below are for doors glazed Bevel Plate Mirror one side.

These Columns are staved up of hardwood and can be furnished in any size. Write for special prices on odd sizes. Always state kind of wood wanted.

STAIR WORK

Practical Stair Builders get out Our Stair Work.

Stair Material is all they work on.

They know their business.

They will make stairs according to your orders.

There is nothing too difficult for them.

We make Stair Work in shorter time than most other Manufacturers require.

WE QUOTE PRICES on Stairs ready to set up. Or, if you wish to buy Newels, Rails, Balusters, Treads Nosed, or other material for Stairs, we will gladly furnish them. Some Stair Plans are puzzling. As we are manufacturers, used to getting out all sorts of complicated stair jobs, maybe it will be a help to you sometimes when you are busy, to send the plans and specifications to us and let us take off the Stair Work and all the Millwork, and quote you a delivered price. We shall be pleased to do it.

Eight Things We Must Know in Making Stairs

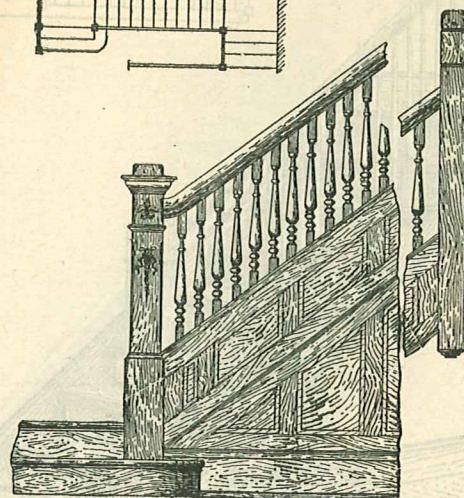

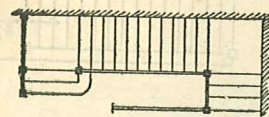

Please see that your ORDERS and INQUIRIES give all this information:

- 1 Height from finished floor to finished floor.
- 2 Width of joist on second floor.
- 3 Width of stairs.
- 4 Width of well hole.
- 5 Run of stairs.
- 6 Ground plan, both first and second floors.
- 7 Kind of Wood wanted.
- 8 Patterns of Base used in hall.

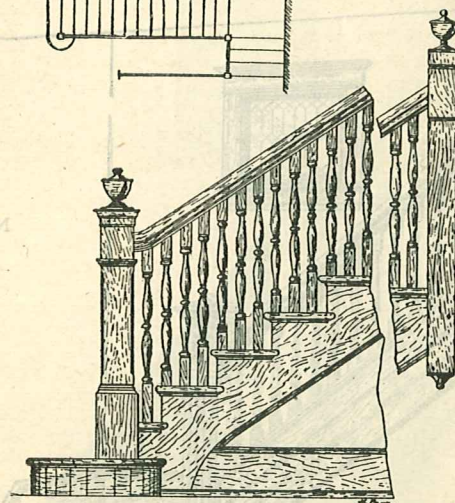

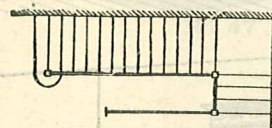

We make up in large quantities the nice Stock Newels, Rails, Balusters, Fillet and Shoe, shown on pages 60, 61 and 62. That makes them cost less, and you save money by using those patterns wherever you can.

We Know Our Stair Work will Please You

WE CAN HELP YOU ON

Architects Plans

OFTENTIMES it is impossible for you to make an intelligent list of Millwork required for a house, on account of the intricate details and plans made by the architect. If you will send us plans, details and complete specifications, *our Force of Competent Estimators* will relieve you of all that trouble.

Our Estimate Will Show You

A DELIVERED PRICE ON THE
ENTIRE LIST OF ITEMS

Even if the plans and specifications are not intricate, send them to us. We will gladly figure them for you and quote you a delivered price.

DO YOU WANT help in securing contracts on Public Schools, Stores and Flat Buildings? Get our estimate on Millwork before making your bids.

Small orders placed with us have the same careful attention as though they were orders for carloads. It is a trial order we want.

Our Safe Delivery Guarantee

is printed on page 3. Read the entire page. It tells you what to do in case the railroad company delays or damages a shipment, or is short any bundles.

Again we remind you that

Our Millwork is Good

It is the kind that satisfies people.

That is why our business has grown so large.

That is why we believe it would help you.

Mantel Grates

No. 11

Combination Grate

This grate consists of steel frame, oxidized copper plated; size, 24½ in. wide by 30¼ in. high; 20 in. black basket grate and ash screen. Grate No. 11 burns wood and soft coal. The basket or firepot is heavy cast iron. Price does not include firebrick, as same can be bought in your own town for less than the freight would amount to. Summer front included with above.

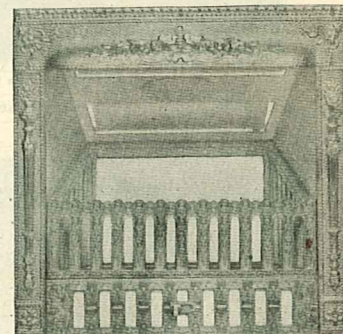

No. 12

Complete Set Grate

This grate consists of steel frame, oxidized copper plated basket grate with dumping bottom, heavy firebrick lined at back, double draft flue dampers, ash screen and heavy steel summer piece; size, 24½ in. wide by 30¼ in. high; 20-in. basket or firepot, 10 in. deep.

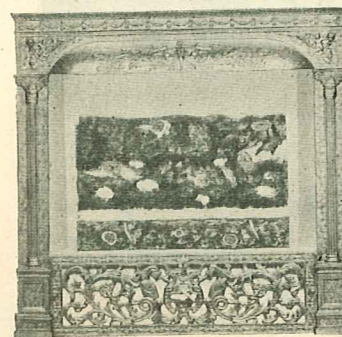

Set Grate No. 12 is sent all in one piece ready for fastening in place, and does not require the services of skilled workmen to set. The arrangement of the two double dampers gives perfect control of draft and fire.

No. 18

Complete Odorless Gas Log Grate

Consists of cast iron frame, oxidized copper or brass plated, coppered reflectors, cast iron gas log, gas valve, air mixer, galvanized evaporating pan also summer front. Size, 24½ in. wide by 30¼ in. high, 16 in. log. This log grate reproduces the realistic effects of a genuine wood fire, without dust or ashes, is absolutely odorless and can be installed without flue connection. It will burn

any kind of gas, but it is well to specify when ordering, just what kind of gas will be used, so the outfit can be furnished accordingly.

1/2x4 Clear Redwood Siding	19.00
1/2x6 Clear Redwood Siding	21.00

There is no lumber at the price that will compare with **Redwood** for use as **Bevel Siding**. It takes paint better than almost any other wood, will not warp, shrink or check, and is in fact superior to any other wood for exterior use. We heartily recommend **Redwood Siding** as the highest class siding that can be sold at so low a price. Bevel Siding weighs so little it can be shipped by Local Freight at very small expense. Send us your lists for delivered prices.

Ornamental Surface Butts Wrought Steel

Nos. D-161 to D-164.

Easily reversed; the lower ball tip, which screws into the end of butt, is slotted and can be removed by using screw driver packed with each pair of butts; the pin is removed and the offset or surface leaf reversed. These butts fit jamb of door same as ordinary door butt; the leaf, which attaches to the door, however, is fastened to the surface instead of the edge of the door, requiring only half the time to apply it that is required for ordinary butts and makes a unique and ornamental job.

Price per pr. with screws.

WHO—BUT—US?

Tell Us Where We are Wrong

OUR Complaint Department is a small affair—we don't need a large one—but we have one, and if things don't come right we want you to register your "kick" and it shall have our prompt attention and careful consideration.

The management of an enormous business like ours cannot know all the details; and when errors occur, we will consider it a favor if you will tell us.

If we have not entirely
pleased you, **TELL US**

If we have given you sat-
isfaction, **TELL OTHERS**

In Conclusion

Any suggestion as to how we can handle your business so as to please you better, we can assure you, will be appreciated.

Chicago Riverdale Lumber Co.
